Release

- Installers do not promise that the work done on your computer equipment will be successful.
- That the attempt to install, configure, or otherwise get the Linux operating system to work on your computer equipment has inherent dangers that no amount of care, caution, instruction, or expertise can eliminate. That any attempt to install, configure, or otherwise get the Linux operating system to work on your computer equipment, especially including any attempt to partition or re-partition your computer's hard drive, may result in the loss of some or all of the data stored on that hard drive.
You are expressly assuming the risks and the dangers set forth above.
